About This Game

Komaru Naegi, little sister to Makoto Naegi, has been imprisoned inside a mysterious apartment for over a year. One day, she is rescued by Byakuya Togami of Future Foundation, but the rescue is derailed by a sudden attack of hundreds of Monokumas. Komaru soon discovers that the city has been taken over by a group of children calling themselves the Warriors of Hope. Their leader, Monaca, declares that the city will be the site of a “children's paradise,” and to accomplish this, all the adults will be exterminated. Komaru teams up with Toko Fukawa to try to survive the rampaging Monokumas, escape the crafty Monokuma Kids, and uncover the secrets of the city.

10/10 soundtrack as expected of this series.

Gameplay is sub-par but makes up for it with a fantastic story and by not being hard whatsoever thanks to KVB+Mouse so that you can just get to the story parts faster. 100% recommend for anyone who is a fan of the series and wants more lore on the outside world of Danganronpa. I wasn't even gonna play this one because of how bad it looked from a graphical and gameplay point of view (and not a big fan of Toko/Genocide Syo) but so glad I did now.

Also highly recommend JP voices to avoid cringing in to the next dimension (goes for all Danganronpa games tbh.). Danganronpa. This is my favourite Danganronpa game, don't @ me.

Please make more games like this! More Danganronpa spin off games please! and...more of the visual novels of course ;)
