I was skeptical when I started playing, but once I found the fall and dodge mode, I was hooked. I grinded those levels harder than I grind my ♥♥♥♥♥ in the club. 10/10. Amazing! Game graphics are incredible beautiful and music is A-class too!. It's a great game.
So great.
The greatest game.

#MAGA2020. Yes, this is good game. Guy who made it is also cool guy.. Hella trippy and amazing. Imagine the feeling you get in your brain when you ejaculate and multiply that by a factor of approximately 900000. It is insane. Insanely good. Hell yes I recommend this♥♥♥♥♥♥. When I first loaded the game up, I saw the warning about the lights and stuff. Was a little scared. But as a I played the game i slowly fell into a comatose state. Not in a bad way, but in a good way. This game makes me feel like Im on acid and i love it. Very addicting, Would defnitely recommend. Please don't play if you have epilepsy. Again, play this game.. Definitely buy this if you're looking for a new kind of game! It is truly a different and unique experience. I was looking for a trippy game to play while high for the longest time and this is it. Soundtrack is amazing, definitely one of the best parts of the game. Gameplay is unorthodox and holds some bugs, but the glitchy nature of the game seems to be intended and this is what makes it enjoyable. I got it on sale for under a dollar and it's worth it. If you buy it, give it some time because I found that I liked it more as I played longer.
Cons:
The game doesn't save my progress. I will progress in levels, but any time i exit to main menu or close the game and then try to continue where i was left off, my level progress is not saved! I am booted back to Platforming2 every time. Please fix this bug devs.

What a trippy ♥♥♥♥ing game.. I creamed my pants.. https://www.youtube.com/watch?v=dtldgZ7JJvo describes how I feel about this game. I would've paid $50.. Best to play while drunk.. DO NOT BUY THIS GAME!

It's terrible, the gameplay is bad and the game just generally looks bad. It looks like it was thrown together with little effort.

Something to note is that it uses emotional blackmail on the in game menu, this being the exit button having the text "MISS YOU (:(- EXIT"
