Fun-ish game.. Put this game free this is the badest game i've played. Just try it!, It's so much fun than you see. In my opinion, The level difficult is hard as it should be, so that make the game so fun. The trick of this kind of game is that you must try to play the same stage to get you the professional skill!. For now, I GOT THIS GAME 100% ACHIEVEMENT. LOL FunGameOverall (8.5/10). At first glance Porradaria Upgrade looks very basic with unpolished graphics but once you get stuck into it, it's a very enjoyable little game. It has elements and gameplay of the old school games such as shinobi, legend of Kage (NES) and Super Mario all wrapped into one. Playing on keyboard can be quite hard, but the game supports USBJoystick and that is what i recommend. certainly worth a try if you enjoy those kind of old school retro games.
